Kara
Kalamatas

As a true born and raised Chicago native, Kara began her career in the hair industry in 2005 working for a departmentalized salon specializing in strictly hair color. Over time, she was asked to be part of the Keune Education team as a Regional Educator that requires traveling to salons nationwide, to now becoming an Academy Trainer.

Along with educating, she is also behind the chair full time in the Chicago area. All aspects of hair color is truly her passion in this industry. From corrective color situations to beautifully placed highlights, Kara is constantly growing her knowledge in the world of hair color every single day. "I believe as Hairstylists we get caught up in the shuffle and tend to complicate what we love to do day to day. When essentially all we need to do is ground ourselves and bring it back to the basic information we were taught. Never stop learning and grow through what you go through."
